

CAMPUS ENTRY PLAZA

A brand new campus entry plaza draws visitors into the campus by emphasizing the pedestrian arrival and celebrating the restored creek.

OUTDOOR EXPLORATION

As the centerpiece of the new heart of the campus, the outdoor exploration space will implement the latest innovations in active learning.

CAMPUS WELLNESS TRAIL

The Wellness Trail unifies all the great spaces of Alcuin's campus together along a linear path. This path will become a significant tool for athletics, campus tours and teaching.

WEST CAMPUS PLAZA

The West Campus Plaza opens itself to the shape of the Wellness Trail and allows Alcuin's beautiful landscape to become the central part of the user's experience.

LEARNING LAB

The outdoor learning labs are nested spaces within the landscape that provide intimate seating areas that tier down to meet the creek.

WORLD LANGUAGE AND FINE ARTS

The World Languages and Fine Arts Plaza is designed as a forum for students to interact with a variety of people in a blurred indoor and outdoor space.

OUTDOOR LEARNING

Throughout the proposed plan, buildings and spaces are designed to blur the line between indoors and out. This is accomplished through a variety of means including courtyards with seating and working surfaces provided, strategic sun shading, and classrooms that provide outdoor access.
